

Departments that need to complete their program review self study on WEPR for the 2018-2019 academic year.

For the CTE programs completing PR this academic year, the labor market reports **will** be generated by the Work Force and Economic Development office (Dean Kelly Schelin).

The (F) symbol means full program review, the (U) symbol means 2yr update (partial PR).

The research department at the district office **will** run and input the departmental data and statistics into the WEPR shell.

This process will hopefully be finished in two weeks.

The link for WEPR and the video WEPR instructions are below.
