It resulted in all Governing Board members and the Student Trustee being present. Ms. Barrett then asked Greg Enholm to lead the Pledge of Allegiance to the U.S. Flag.

Report Out on Closed Session

Ms. Barrett said there were no reportable actions from closed session.

Public Comment

Ms. Barrett said Mark Bradley requested that his statement regarding CCCCCD/ State Case No. 38931-OAKRCI/ OSHA CASPA 63 be read and entered into the minutes. The following was Mr. Bradley's statement: "Concerning the case of retaliation by the District's administration and the Governing Board's related action's I direct your attention to the letter below. Under current conditions which prevent the information concerning the truth of the District's activity being made accessible I move forward in the expectation that reciprocal respect will be given in extending the time frame of this case. The testimony on the part of the District being made fully available and legally assessed then an appropriate investigation and resolution will be assuredly sought. On a personal note, as a CCCCCD employee of 27 years, the evasive character and inactivity of this Board in the face of known facts is a public testament to the cowardice and shame in its integrity. These qualities are not in my nature and I ready myself upon the moment that permits me to bring the evidence face to face and denounce this board."

On behalf of Mr. Bryan Scott, East County Voters for Equal Protection, Governing Board President Barrett read a statement he sent regarding emergency medical and fire responses in the Brentwood area: "Good evening, Trustees. My name is Bryan Scott, and I am a Brentwood resident, as well as a 1974 graduate of Contra Costa College. I'm speaking tonight to make sure you are aware of a situation in east Contra Costa County, where you are building a new educational center.

I'm here to tell you that your new Brentwood Center facility, the students who take classes there, and the instructors and staff who work there, are all at increased safety risk.

You see, the government agency charged with providing emergency medical and fire response services in this area is dangerously under-funded.

The local fire district provides response times in Brentwood of between of three to five times national standards. This fire district is unable to respond to emergency calls at all for significant time periods each month. It cannot fight a structure fire without aid from other fire districts, and it is unable to comply with County EMS contracts.

Two months ago, in June, the roughly 128,000 residents of eastern Contra Costa County were without a responsive fire district for nearly 24 hours; it was 23 hours, 22 minutes, and 56 seconds, to be exact. The district's three fire engines were just too busy

Fifteen emergency medical calls came in during this time. Response to these calls came from central Contra Costa County, in one case from the Concord Naval Weapons Station, 33 minutes by car and 23 miles away.

The community has for some time been concerned about this lack of adequate emergency services. This problem has been the subject of county Grand Jury reports, of LAFCO municipal services studies, and consulting investigations. An Inter-Governmental Task Force has even issued a report, stating the facts.

The fire district itself has repeatedly issued press releases, saying that it is unable to provide an adequate level of service to the community. Last month, after being over-run by emergencies in June, the President of the fire district's Board of Directors asked the fire chief and district staff to explore declaring a local state of emergency.

This fire district recently held a press conference, covered by the news departments of several Bay Area television stations, where it stated that its firefighting protocol was defensive only, meaning that when called to a structure fire, the fire district would set up a defensive perimeter to keep the fire from spreading, but let the structure where the fire originated burn to the ground.

This means that your new 65-million-dollar structure will burn to the ground, if it catches fire. You should expect a total loss of the instructional classrooms, the science labs, the library and the bookstore. It will all burn to the ground. But it is likely that the 700 parking stalls will survive.

The city of Brentwood, where your new Brentwood Center is located, has no plan to solve this problem. The fire district, that government agency responsible for providing services to you, as a community college district, has no immediate plan to increase their funding level, either.

East County Voters for Equal Protection is a citizen's action committee formed in January, 2015, to address this underfunding of the area's emergency services. I am the founder and Chair of this committee.

We created a voter initiative to address the Brentwood portion of this problem, and filed it with the city of Brentwood in January of this year. The collection of signatures began in February.

In March the pandemic struck, and County health officials ordered the population to stay at home and maintain six-foot social-distancing. These orders shut down our signature-gathering.

In June, our group began lobbying the City Council to place the initiative on the November ballot without signatures, as the City is entitled to do under Elections Code Section 9222. We also pleaded that other action be taken, to address this crisis. The City Council ignored these pleas.

Good luck with your new facility.

Mr. Márquez read letters of concern from CCC Latinx, written by Norman Valdez-Jiminez, Puente Project Coordinator.

Mr. Enholm said he has been heavily involved in election activities. He also referred to his written report, that included the following three priorities:

"#1 Priority

Direct the Interim Chancellor to select an Interim Executive Vice Chancellor-Administrative Services candidate to have the Board approve an employment contract at the September 9th Regular Meeting to have all 3 top District administrator positions filled as soon as possible.

#2 Priority

Direct the Interim Chancellor to work with the Interim Executive Vice Chancellor, Administrative Services to present to the Board the creation of the new temporary position of Interim Deputy Chancellor who will be selected by the new Chancellor (assuming the Interim Deputy Chancellor candidate is acceptable to the Board) in consultation with the Interim Chancellor, the Interim Executive Vice Chancellor, Administrative Services, the Board search consultant Dr. Brice Harris, and the Board President. The Interim Deputy Chancellor will start on the same day as the new Chancellor and do the assigned duties of the Chancellor (somewhat like an Acting Chancellor) as directed by the Chancellor in consultation with Board President.

#3 Priority

On page 5 of the Minutes of August 8, 2020, "Mr. Márquez stated he is in support of a seven-member Board" and I agree. The Board President should when appropriate appoint an ad hoc committee to begin the process to determine whether and how the Board can increase the number of Trustees from 5 to 7 to have the new Trustees elected in the November 2022 election. It is clear from the data (included) that the

work load of the 5 Trustees is too much for them including having the two oldest Trustees die in office since 2011.”

Ms. Gordon said she has been working hard on equity and inclusion statewide.

Mr. Li said he has requested that resolutions be placed on Governing Board agendas to promote underserved groups. He said he is working on a survey that will attempt to understand how to retain, not lose students.

Ms. Barrett welcomed everyone to a new academic year. She thanked everyone in the District for conducting most learning and business through distance learning. Ms. Barrett thanked the foundations for all of their hard work. She reminded the Governing Board of the District’s mission. Ms. Barrett said she is excited for the permanent chancellor interviews to begin, and for participation by all groups involved. Ms. Barrett also said a special Governing Board meeting will be held on September 16, 2020, to address some of the issues raised by CCC Latinx.
