

[Subject line] PLEASE RESPOND: Academic Senate - Goal setting survey

Dear faculty colleagues,

We are approaching the end of the academic year, and we need your input to inform our setting of goals for next year. This is a chance for you to influence the focus of the Academic Senate Council's work next year and to make the Senate Council more participatory.

Could you please spend a few minutes completing the anonymous survey below? The more candid and specific your responses, the more we'll be able to address your needs and concerns.

Professional development

How much input have you been able to provide on needs for faculty professional development activities?

I understand the operation and processes of the Academic Senate.

I am familiar with the regulatory framework that gives the Academic Senate its powers.

I know how the Academic Senate Council can have an impact in my discipline, department, and/or programs.

I understand the role of faculty in committees as it relates to the Academic Senate.

Comments on Professional Development:

Representation

The Academic Senate Council understands and supports my needs in academic and professional matters.

The Academic Senate Council represents my views.

How could the ASC increase faculty participation in Academic Senate issues and processes? [Open ended answer]

Comments on Representation:

Curricular and Instructional matters

I understand and know how to provide input to the Academic Senate Council on standards and policies for student preparation and success.

I know how to provide input into accreditation processes, including self-study and annual reports/plans.

Participatory governance and College leadership

I can effectively provide input to college leadership about institutional planning and budget development.

I can effectively provide input to the Academic Senate Council on its role in college leadership.

I am satisfied with the current direction of the College.

If you answered 1, 2, or 3 in the previous question, please share with us specific details of what explains your level of (dis)satisfaction.

If your answered to the previous questions was 1, 2, or 3, how would you like to see the Academic Senate influence the direction of the college?
