Possible Purchase of New Planning Software Desirable Functions for Purposes of Curriculum, Program Review, SLO, Catalog

The district would like to standardized the software to use for all three of the campuses and is looking at three different systems. Currently, CCC utilizes three, DVC two, and LMC still does everything on paper. A bid will be going out for the software in June or July and a committee, including faculty, will be asked to look at the applications and choose the system. Beth said they would like it in place by Fall 19. Katie asked for a resolution and wrote the resolution. Bonnie motioned to approve the resolution, "The Academic Senate Council believes the software implemented for these functions will have a dramatic impact on the work environment, curriculum, accreditation, SLO, and program coordination and decisions regarding its purchase should be made carefully and with wide faculty input."; Alissa seconded; Beth, Mark, Judy, Randy C, Katie, Luci, Jon, Bonnie, and Alissa were all in favor; there were no abstentions.

Equivalency Committee Composition The Equivalency Committee is currently composed of the senate president, senate VP, a past committee member, and a faculty at large. With Wayne and Rick retiring, we have no past committee member interested in assuming the position so Beth is asking for the composition to be changed to the two senate positions and two faculty-at-large position. Bonnie motioned; and Alissa seconded; all were in favor to approve this change.

Department Bylaws Discussion It is very important that departments have bylaws that follow the UF guidelines for hiring and scheduling that detail correctly faculty loads and bumping rights. Department bylaws are our legal contract between the department and the employee and should be kept updated and posted for other faculty to view. Beth will discuss with James Eyestone about the best place to house these.

Possible Enrollment Recruitment Event Comet Day went so well that they would like to have one for high school students and their parents so the tentative event would possibly happen from 4-8p.m. after Aug 24 All College Day events. The ability to register for classes would be available. Beth asked faculty to consider devoting one hour to show the facilities and possibly an example of an experiment...

URL Web Filtering The district bought a program to block websites that aren't appropriate to access using the college Wi-Fi. This poses a problem in researching certain subjects. The Council would like to poll other colleges on whether they use filtering. Judy motioned for the Senate Council to support turning off the web filter but leaving the security part in place; Bonnie seconded; all in favor except for the abstention of Jon and Mark.

Online Education Initiative (Judy) Judy reported that CCC is part of the OEI and a contract will be delivered by the end of the semester. The new DE Coordinator is Mike Kilivris.

Scheduling Committee Update (mission, criteria for cuts, state of college) The last meeting of the semester will be May 16. 18-20 sections will need to be cut for Spring but they will be low-enrollment courses.
