Course Number(s): English 11	0A: Developing College Level Reading Proficiency
Current Discipline(s): Reading	g Discipline

Discipline(s) to be Added: English	
Discipline(s) to be Removed:	
Rationale for the addition of discipline(s) to each course: (list each course separately in the expanding box)	
Numerous qualified teachers have extensive training and experience in teaching developmental reading courses but do not necessarily have 12 semester units in courses specifically designed to teach reading. Many education courses, for example, focus on integrating reading and writing and other literacy skills. Without this addition of English as a discipline, the department is unnecessarily limiting the pool of qualified instructors.
