DISCUSSION ITEMS
GE Requirements To meet Accreditation requirements, CIC must evaluate the GE requirements. It was agreed that the Computer Literacy Requirement be redefined to include Internet search, databases searches, and library literacy. All departments should look at the Computer Literacy Requirement to determine if it's up to date with technology. It was decided to change "#J. Computer Literacy" to "Information Technology Proficiency." This needs to be changed by the end of Fall 01. This proposal will be sent to the Academic Senate for approval to survey the faculty as to whether the CIC should update the requirement from Computer Literacy to Information Technology Proficiency.
Expectations for Course/Catalog Changes Course/Catalog Changes need to include copies of the new and old course outlines and a new syllabus. This was motioned and approved. Course to Transfer needs to be added to the form. It was further discussed that definitions need to be redesigned in the catalog and schedule. The CIC manual needs to be reviewed.
ADJOURNMENT The meeting was adjourned at 4:00 p.m.
