DISCUSSION ITEMS

Discussion: eLumen transition planning: eLumen will no longer be our curriculum software at the end of this academic year. The district is in the process of finding a replacement. There are currently enough items in the queue, along with upcoming CCN courses and articulation emergencies, to fill our CIC agendas for the year. Any proposals that do not make it to a CIC agenda will not migrate to the new system. Faculty have recently been restricted from making revisions or creating courses to minimize duplicating work, and we will be reaching out to faculty who have proposals that will not migrate, so they can save their work. Updates to this transition process will be reported to CIC throughout the year.
