Student Learning Outcomes / Administrative Unit Outcomes Committee Minutes

Tuesday, October 18, 2-3:30PM
CTC-127

Members Present:	
Randy Watkins (Coordinator), Nick Dimitri, Donna Floyd, Jason Berner, John Wade, Ellen Coatney, Greg Ponomareff, Beth Goehring	
Review of Agenda and Minutes:	**Randy Watkins**
Confirmed minutes of 9/20/16. Reviewed Questions from 9/20/16 and found some answers: • SLOAs will be submitted by course and program with the Program Review as links. • Materials for objectives, SLOs, AUOs, and ILOs as well as CurricUNET SLO Module will be in folders in the CCC_SLO group with some 4CD (everyone including students), CCC (faculty, management, classified), and SLO Committee access.	
Changes to ILOs	**New ILOs approved by Academic Senate 10/18**

Revised ILOs approved as:
      Provide and encourage the members of our community to gain:
          •   Critical thinking skills and abilities, including evaluating, analyzing, and applying information;
          •   Communication skills using verbal, auditory, written, numerical, and visual forms;
          • Awareness of themselves, their community, and the world around them, leading to personal responsibility, ethics, and civil engagement.	

Changes to CurricUNET SLO Module	**Forms flow and connection of SLOs**
With the approval of a shorter list of ILOs that fit the entire Institution, the CurricUNET SLO module can go forward with the following changes: • ILOs will be mapped to PLOs except when a course does not have a program, in which, the ILOs will be mapped directly to the course. • To map the course SLOs to a PLO, when creating a PLO assessment, select at least one course SLO from each of the associated courses from a drop-down checklist. • To map the ILOs to a PLO, when creating a PLO assessment, select at least one institutional SLO from the checklist of ILOs.	
Review of New CurricUNET SLO Module:	**New forms and what has to be done**
The current program data was preloaded into the system. In modifying existing programs, Robert Webster discovered that for all degrees (which require GE courses): CurricUNET lists every course that is listed in the GE category associated for that course. Sometimes, this can be as many as 200 courses. We will review with CurricUNET about collapsing the Course Blocks or hiding the GE courses from the modules and reports.	
Next Meeting:	**November 15, 2-3:30PM, CTC-127**
