ⁱ Per M. Padilla: the agreement with these project leads was that they would have to send in a written report in a short essay style describing the project they implemented, a characterization of the students that participated or benefited from their project, and the outcomes (what was the benefit to students and how is this outcome related to the indicator they were funded under).

The mission of the Student Success Committee is to “*Build a culture of collaboration, data-based inquiry, and continuous improvement on campus to increase student success outcomes for all students.*”
